Founded in 1982, TVS Tyres is a leading brand in the 2 & 3 wheeler segment. Today, the company is a major OEM supplier to not just TVS Motors, but also to Bajaj Auto, Hero Motocorp, Honda Motors & Scooters India, Suzuki Motors India & Yamaha Motors. It is also a global player with exports to Europe, UK, Asia, Middle East and Africa.

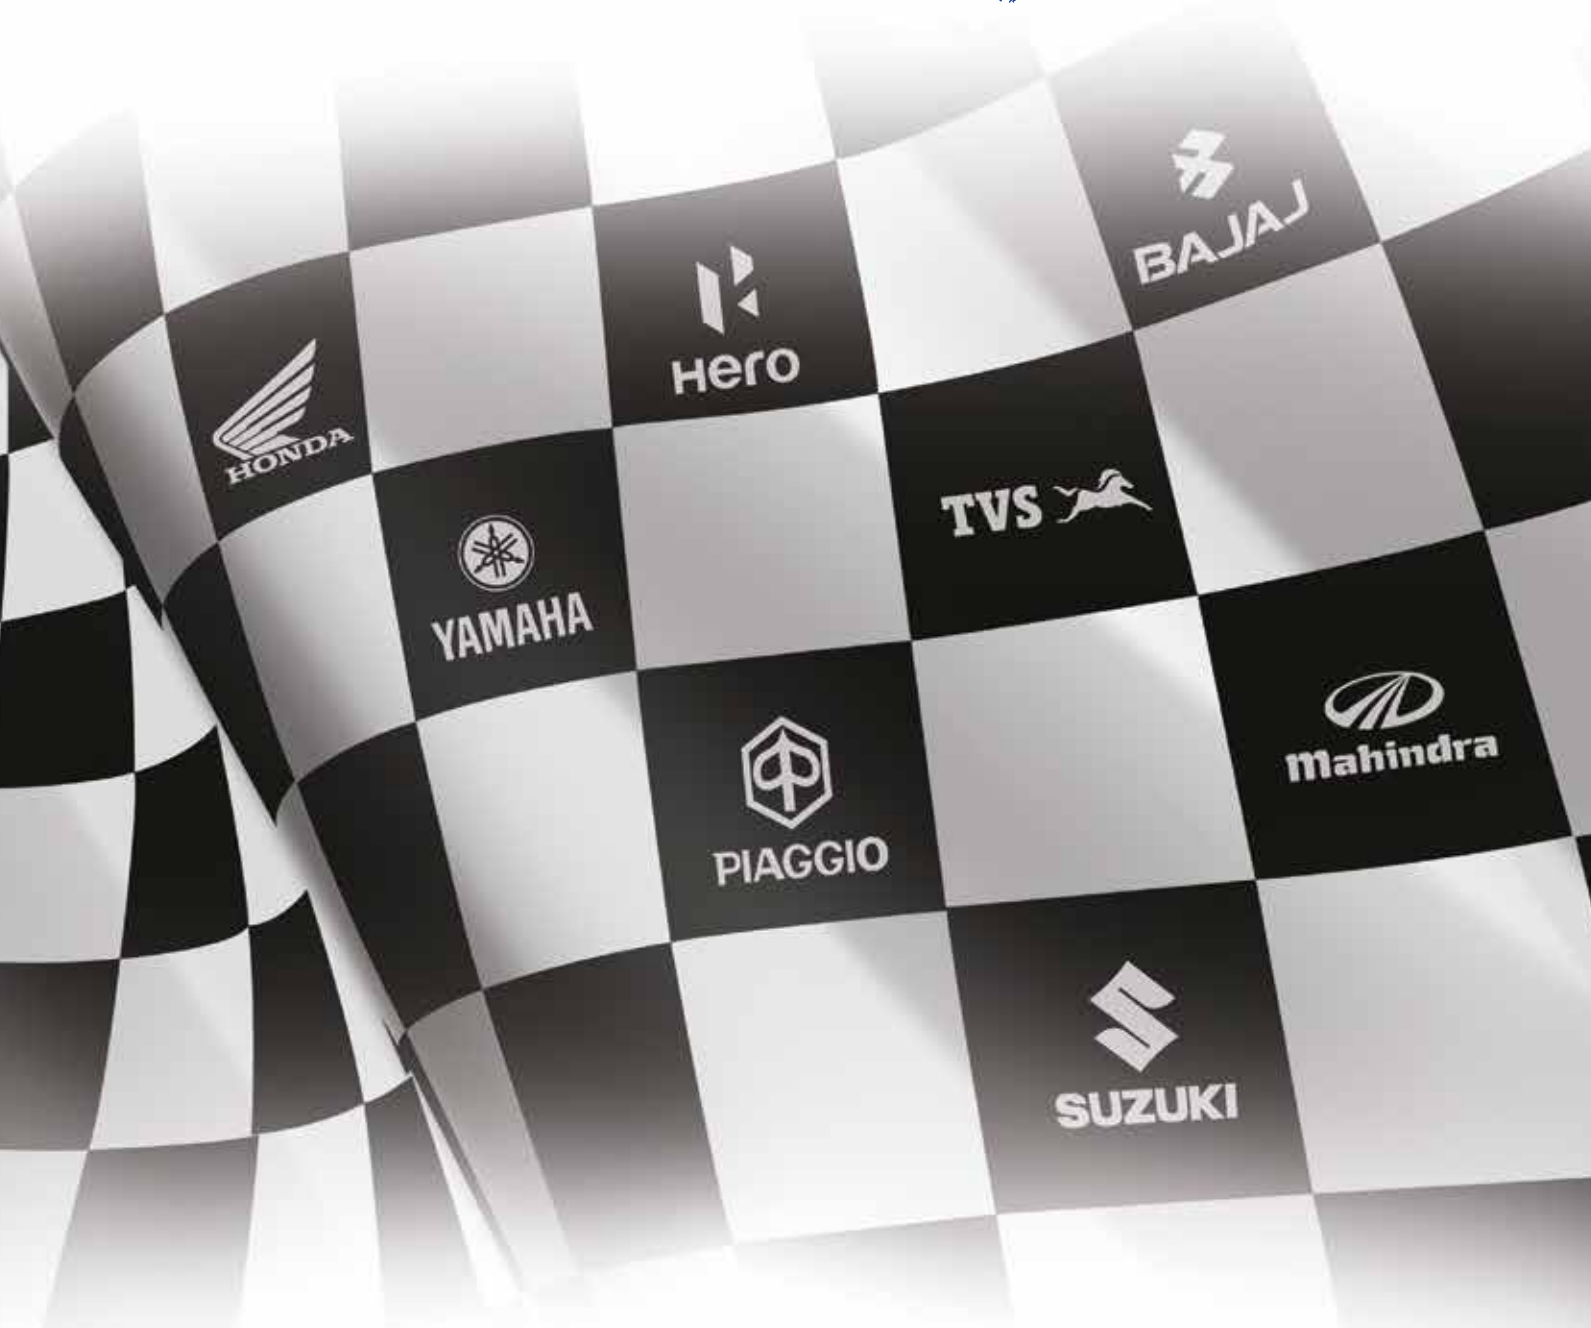

A large part of the company's success can be attributed to the simple philosophy of placing its customers first with a high emphasis on products and services designed for Indian conditions and terrains. As a result, for years, TVS Tyres' innovative tread patterns have caught the imagination of customers, making it a strong brand of choice. What's more, the company's technology and deep customer insight have enabled it to give you tyres that are much more sensible, so that you can ride smart with roadsense.

A recent addition is a range of two and three wheeler tyres under the brand name **EUROGRIP** 

TVS Tyres is ISO 9001 certified and was recognised as a 'Green Aspirer' in 2009 and also a Gold winner of the 'India Manufacturing Excellence Award' in 2008.

The background of the image is a scenic view of a winding road through a forested valley. The road is paved and curves through the landscape. In the foreground, a motorcycle tire is prominently displayed, mounted on a silver alloy wheel. The tire has a complex tread pattern and the word 'EUROGRIP' is visible on the sidewall. The overall scene is bright and clear, suggesting a sunny day. The text 'EUROGRIP Tyres' is overlaid on the image in a white, sans-serif font, centered within a large blue circle. There are several other smaller circles in various colors (dark blue, light blue, orange, green) scattered around the main text circle, adding a modern, graphic design element to the advertisement.
